FIRST IN RESULTS TO ADVERTISERS NUMBER 6

## Full Program of Games, Contests Planned for Picnic

### All-Day Farmers' and Firemen's Outing to be Held at Herman's Resort

Excitement from its opening at 10 o'clock in the morning until its close in the evening is promised at the Farmers' and Firemen's picnic to be held at Herman's resort, Bluff lake, Sunday, Sept. 21.

Games, races and contests of all kinds will be held, with such prizes as, for instance, live chickens and live ducks. Host Ed Knickelbein has issued a warning to would-be participants to "dress the part," for the contests will include such dignity-upsetting events as catching the greased pig, rowboat races, tugs of war, and so on.

There will also be a program of indoor games.

Attendance is open to all. Proceeds from various features on the grounds will go to 10 lakes area volunteer fire departments.

## Bowling League Begins Season

The Women's league, with 12 teams, opened the Antioch bowling season last night at the Recreation parlors.

The Men's City league will open its season tonight, also with 12 teams, and Monday evening a combined Tavern and Business Men's league will bowl.

The Pickard mixed league of women and men will bowl on Tuesday evenings. The mink farms have also organized a league to bowl Tuesday evenings.

Manager Louis Bauer is seeking a team with an average of around 875 to complete a six-team league. Teams from other communities, including Silver Lake and Camp Lake, may be included in this league.

### Pettengill Named Movie Arbitrator

Recently Paul W. Pettengill, certified Public accountant, was appointed a member of the Chicago Panel of Arbitrators of the Motion Picture industry.

This Motion Picture Arbitration system was set up by the American Arbitration Association under a consent decree entered by the court wherein the motion picture producers and the distributors agreed and consented to certain things, among them being the arbitration of future disputes and differences arising between the producers and the distributors.

Mr. Pettengill is senior partner of Paul Pettengill & Co., Certified Public Accountants, with offices in Waukegan and Chicago, and is also President of Lake College of Commerce in Waukegan.

### Dow Wins Award at Homestead Harvest Fete

William Dow of the Pullen tract, Antioch, placed fourth in the individual booth displays at the second annual Harvest Festival of the federal homesteads in Lake county, held Sunday in the Viking home at Gurnee. About 300 homesteaders and their guests participated in the displays, sports, cafeteria supper and final program. The Leech tract at Wadsworth won the tract award. There are 53 families located on the 10-acre farms of the seven federal farm security "homestead" tracts in Lake county.

### Hold Services for Sister of Lake Villa Residents

A requiem mass was sung at Immaculate Conception church in Waukegan this morning at 9 o'clock for Mrs. Emily Skrusbis, wife of John Skrusbis, Waukegan. Her death took place at St. Therese hospital Monday night.

Survivors include a brother, Frank, of Lake Villa, a sister, Mrs. Valeria Sheehan, Lake Villa, and another brother, Steve, of Kenosha.

Burial was in Ascension cemetery.

### Hold Final Rites for Lake Villa Resident

Funeral services were held Saturday morning at 10 o'clock in the Strange Funeral home for August Stephan, 67, of Lake Villa, who died last Thursday at his home near Sand Lake after a three years' illness. The Rev. W. A. MacArthur of Lake Villa officiated. Burial was by cremation.

Stephan, who was born in Germany, had spent most of his life along the North Shore as gardener and house-

man.

He is survived by his wife, Minnie, son, Robert.

### First Aid Class to Start Soon Will Be Open to All

Not only persons interested in joining the Antioch rescue squad or its reserve, but others who are interested in first aid work in general may join the class in standard Red Cross first aid methods which is being organized here.

A class for women is also to be organized as soon as possible.

Persons interested in signing up for the classes are asked to notify Herman Holbek, captain of the Antioch rescue squad; Herman Rosing, first lieutenant; or Walter Scott, second lieutenant.

A meeting to determine on a convenient night for holding the weekly classes for men will be held at the Antioch fire station next Friday evening, Sept. 25, at 8 o'clock, Holbek announces.

### National Letter-Writing Week to be Observed

Fourth National Letter-Writing week will be observed Oct. 5-11, Ramsey D. Black, third assistant postmaster general, announced in a letter to Roy Kuflik, Antioch postmaster.

Black says, in part:

"National Letter-Writing Week this year takes on new importance. National Defense transcends in importance all government or public activities and a very vital part in this program falls to the Post Office. The service functions must be maintained at a high level. Postal activities must be enlarged or extended to provide facilities at military and naval establishments, or in new industrial fields."

It is our duty so to conduct them that no unnecessary burden falls upon the taxpayers. Now more than ever operating costs must necessarily increase.

Since first-class mail is the back-bone of the service and its most lucrative source of revenue, it is most important that letter writing be encouraged.

"Letters can be the source of great comfort and happiness to the thousands of young men serving in the armed forces. It would at least be appropriate if during National Letter-Writing Week there could be widely developed the habit of frequent correspondence with these well-deserving youths. The exchange of cheerful letters between friends, acquaintances separated members of the family, will contribute in no small way to spreading happiness and building up a better spirit among all the people. School children should be encouraged to write more letters both from the standpoint of improving the use of the mother tongue and developing a worthwhile accomplishment for later life."

### Yesterdays

#### 38 YEARS AGO In the Antioch News

On Tuesday morning a party composed of the following started off for a ten days' trip through Oklahoma and will go as far south as Galveston, sight-seeing and prospecting: George Webb, J. J. Burke, H. B. Pierce, Lew Cannon, Mr. McDowell, Chas. Lux, Jr., Geo. Gollwitzer, of Antioch; Mr. and Mrs. J. G. Rowling, Lake Villa, and a Dr. Piper of Chicago.

H. B. Pierce, Jr., writes to the editor from Mangum, Okla.—"Green county has been very peculiarly situated for the past nine years, for this reason: It was a section of country which had been in dispute between the United States and the state of Texas."

Reports from Wausau, Eau Claire, Sparta and other cities in northern Wisconsin tell of great destruction by heavy rains and high water. St. Paul, Minn., and Winnipeg, Manitoba, report heavy rain, snow and sleet.

Harold, Kenneth and Alex Hughes of Loon Lake have left for Champaign where they will attend school for the coming year. Ruby is attending a sewing and cooking school.

Mrs. John Evans and little daughter of Salem, Wis., visited a few days last week with Mrs. C. B. Hamlin at Lake Villa.

"A penny saved is a penny made"—Your savings will be counted by dollars if you use Ben Hur flour!—Ady.

#### 22 YEARS AGO Sept. 18, 1919

Thirteen thousand, four hundred and fifty-two bottles of real before-the-war beer went up in smoke Saturday at Woodstock. The anti-bacchanalian ceremony was conducted by State's Attorney V. S. Lumley after orders for the destruction of the joy juice had been issued by Judge Barnes. The night before the ceremony some thirty cases with an auto truck embezzled 137 cases of the confiscated liquid.

The Curtiss Airplane corporation has leased by Judge C. C. Edwards-Eugene M. Runyard farm of 101 acres just north of the golf grounds and will begin the immediate construction of three or four hangars, and will use the farm as a flying and demonstration field.

Last Wednesday at the M. E. church in Lake Villa at 2 o'clock, the marriage of Miss Helen, younger daughter of Mr. and Mrs. James Kerr, and William M. Weber, son of Mr. and Mrs. William Weber of Sand Lake, was solemnized.

He is survived by his wife, Minnie, son, Robert.

### Duck Hunting Season Will Open Oct. 16

One of the most plentiful supply of ducks in many years is expected for this year's hunting season, according to veteran resort owners around Antioch. Preparations are already being made at the resorts for the opening of the season, on Oct. 16 in Illinois, and Oct. 1 over the state line in Wisconsin.

Each person over 16 years of age hunting waterfowl must obtain a Federal Duck stamp, which costs \$1.00 and may be secured at post offices. This is affixed to the hunting license, which costs \$1.50 for residents in Illinois and \$1.50 for non-residents. Men in the U. S. armed service may purchase resident licenses.

A resume of the Illinois hunting laws follows:

Daily Possession	Game	Open Season	limit	six
Ducks, Oct. 16-Dec. 14.....	10	20		
(Wood ducks protected.)				
Only 3 of day's bag may be buffleheads or red-heads.)

**Fire's Toll of Life**

New figures released by the National Board of Fire Underwriters show conclusively that fire takes its greatest toll among children of tender age. This fact was produced in the course of a study of the latest vital statistics available.

Under five is the dangerous age by a ratio of almost three to one over any other similar age period. Fire fatalities are lowest between the ages of 10 and 14, and are not greatly higher at any later age. In an average year, fire takes the lives of 1,673 children under five, which amounts to 25 per cent of all accidental fatalities in this age group.

Continuing with its study of fire deaths, the National Board estimates that in an average week, 148 people will be fatally burned, and many more will die as a result of asphyxiation, electrical shock and lightning. The annual total of death from fire in one form or another is in excess of 10,000 lives. In the years since the World War, fire has killed more than 230,000 Americans. By comparison, only 50,000 American soldiers lost their lives in battle during that conflict.

The National Board states that modernized building codes and adequate fire prevention ordinances in the cities, towns and villages of America would save a high proportion of the 10,000 lives that are needlessly sacrificed each year. Here is a job for every community—a job which should be done at once. From October 5 to 11, Fire Prevention Week will be observed this year—and the best possible way to observe it is to pass those simple, basic laws and regulations which will prevent the majority of fires.

**The Pork Barrel Is Still Full**

The needs of the defense program are now being used as an alibi for the unprecedented swift rise in our national debt. But that alibi cannot stand up on analysis.

The Treasury's own figures tell the tale. In the fiscal year ended June 30, Federal expenditures were \$12,600,000,000. About half of that sum went for defense purposes.

What is happening is simply this: The staggering cost of defense is being piled on top of an exorbitant

"depression" Federal budget which has not been cut in a single important particular. The waste goes on. The overlapping and duplication of activity goes on. All the costly, needless "luxuries" and political tax-exempt business projects on which the government embarked during the depression in competition with highly-taxed private business, are being maintained as usual.

Our leaders are now pointing out that all must sacrifice for defense, which is necessary. But how about the politicians sacrificing some of their pork-barrel activities which are driving this nation down the road to bankruptcy?

\*\*\*

**Look at the Facts**

Those who urge socialized medicine seem to blind themselves to facts. For the plain truth is that our system of private, independent medicine has been responsible for practically all of the great medical discoveries and advances of modern times.

It was independent medicine that discovered vaccination, developed abdominal surgery, and has practically abolished diphtheria and typhoid. It is independent medicine that has put tuberculosis, a disease that was once considered incurable, and the harbinger of certain death, "on the run." It is independent medicine that has reduced childhood deaths and illnesses to but a fraction of what they were twenty or thirty years ago. And it is independent medicine which is making great strides in combating other bacterial killers.

Under a system of socialized medicine, the doctor is simply a creature of the state. The competitive urge which makes for progress in every field of life—no longer exists. There is little opportunity for advancement. The security of his position depends on pleasing the politicians in power—not on the success with which he handles his practice. This is not theory—the history of socialized medicine in the many countries in which it has been tried, tells the story.

Americans have become the healthiest, longest-lived people on earth.

**Farm Capacity Vital**

\*\*\*

Writing in Nation's Business, A. B. Genung of the U. S. Department of Agriculture, points out that food surpluses have little to do with the problem of food supply. "What we must depend on," he says, "for three good meals every day, is the huge and constant stream of new production. With food, as with planes or munitions, the one priceless essential is producing capacity."

To keep that capacity at the peak, the farmer must receive a reasonable return—and he must be treated equitably with capital and labor. In a period of fast-rising costs, he cannot continue to sell at prices which are barely adequate in normal times.

Evening at the school house. The chaplain in charge was Mrs. W. Weets. Mrs. R. Swartz, Mrs. E. Sten, and Mrs. W. Heimelt.

Evening visitors are now occupying their new home recently purchased from Louis Schmidt.

**OVERCOMING THE ADVERSARY**

LESSON TEXT—Revelation 12:7-12; 15:2-4. GOLDEN TEXT—And they overcame him by the blood of the Lamb, and by the word of their testimony; and they loved not their lives unto the death.—Revelation 12:11.

War! What a familiar word! Men are saying we should put an end to war. We wish it were possible, but as long as sin rules in the hearts of men, there will be wars; in fact, our lesson tells us of a greater war which is to take place in the heavens. The devil is busy not only on earth, but in the heavenly places, and wherever he is there is war. Only when Christ, the Prince of Peace, comes to reign will peace come to all the earth.

Our lesson presents three scenes: Conflict in heaven, rejoicing over victory there, and a victory on earth which brought joy in heaven.

**I. War in Heaven (12:7-9).**

A clear, succinct, and helpful word on these verses is quoted from Dr. John R. Bradbury:

"The dispensational interpretation of this passage is that during the period of tribulation, which follows the rapture of the saints, as described in I Thessalonians 4:15-18; I Corinthians 15:51, 52, and other passages, there will be a war in heaven between Michael and his angels and the devil and his. Satan is not in hell now. It is wrong to teach that he is there. He is the prince of the power of the air. He rules the darkness of this world. He inspires wickedness in his domain and on earth. Against these conditions the Christian is solemnly warned to prepare (Eph. 6:10-18). When we say that Satan is in heaven, we do not mean the heaven of the immediate presence of God. The Bible speaks of different heavens and there is even a 'heaven of heavens' (I Kings 8:27).

"From whence come all the cross-currents of wickedness now sweeping over the world—many of them contrary to the wishes of the vast majority of the people? That there is a malevolent genius directing sinister operations to hinder and baffle God and to destroy mankind is easy to understand. Many people ask, 'Why does not God destroy him?' The answer to that is in this lesson. His hour is coming. He will be expelled from his domain by Michael and his angels. Then, because the people of this world have co-operated with Satan so willingly, he will be allowed to take refuge in the earth. He will come down (v. 12) in great wrath, 'because he knoweth that he hath but a short time.'"

**II. Rejoicing in Heaven (12:10-12).**

If we accept what seems to be the correct view; namely, that the woman of Revelation 12:1-5 is Israel, the nation in which the child (v. 5), who is Christ, was born, then it would appear that those who here rejoice in the victory over the dragon (Satan) would be the Jewish believers who will have come through great tribulation. At the same time it is quite appropriate to apply the truth of the passage to us who now find ourselves in conflict with Satanic powers.

The accuser does not hesitate to appear even in the presence of God to bring charges against us (see Job 1:8-12). But we need not fear him, for he is already judged (I John 16:11) and will (as we see in our lesson) one day be cast down to earth, and as other Scripture reveals will ultimately be cast into the lake of fire (Rev. 20:10).

But he is here now, a supernatural (but not divine) being, plaguing us, tempting us, accusing us. What shall we do about it? As to his accusation, we know we have a just and loving God and also have an Advocate to plead our causes before Him (I John 2:2). For his present attacks, our lesson gives the secret of spiritual victory in verse 11.

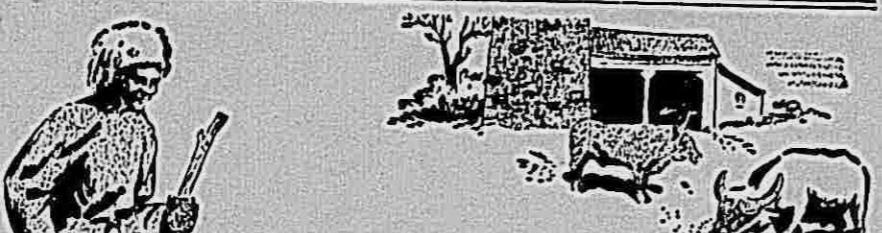

**III. Victory on Earth (Rev. 15: 2-4).**

The scene of victorious rejoicing which we see here is evidently in heaven, but it is because of victory on earth. Here are those that have come through the horrible conditions described in Revelation 13, and have been victorious over the beast, in spite of his great powers.

They sing; that is the token of real victory, of a heart victory. Whatever loss they may have suffered, and whatever trials they may have gone through, they have "gotten the victory" (v. 2). They sing the song of Moses and the Lamb (cf. Exod. 15:1-21 and Rev. 5:9-14).

It is right that the redeemed of the Lord should sing, glorifying the name of God (v. 4) and magnifying His great and marvelous works (v. 3). Let us remind ourselves again that if we are Christians, we are on the victorious side. The glimpse into the heavens which we find in our lesson should give us the right perspective with which to view the troublesome experiences of life. God has a plan, and He will bring it to complete and victorious fruition in His own time and His own way.

### U. S. Farm Cash Milk Income Reaches New 10-Year High

Dairy farmers' cash income from milk for the first six months of 1941 reached the highest total in more than a decade and almost double the low of 1933, according to the Milk Industry Foundation. January-June 1941 total of \$888,000,000 is an increase of 18.09 per cent over the \$752,000,000 '40 period. June 1941 milk income was \$182,000,000, or 31.88 per cent above last June. Prospects indicate milk income will continue higher.

More Men Than Women

More men than women are afflicted with dandruff. There are reasons: Two of them. Men wear tightly fitted hats that keep the scalp overheated; they shampoo their ambrosial locks in a careless, haphazard manner.

They swizzle a bar of soap over their heads, stand under the shower, vainly imagine that their scalps are clean and the suds removed.

Tain't so. To get the scalp clear of dead skin scales, there should be plenty of friction. The shampoo medium should be liquid, so it will pass through the brain wool onto the flesh.

Cheap Auto License

Burch Brown, of Fulton, Mo., had to put out just 50 cents for his 1941 state auto license. On his way to the license office an animal streaked into the path of his car. He stopped, found a dead wolf. The county clerk paid him a \$10 bounty.

Parking Ticket Apology

"Don't be sore. We're only trying to do our duty." That in effect, was the petition passed around Monessen, Pa., as local police began a strict enforcement of the parking ordinances. Mayor James C. Gold said he had not previously ordered strict enforcement because citizens "tagged" had a habit of venting their ire on the mayor personally. So the chamber of commerce thought up the petition.

Not Transferable

Old age assistance is not transferable from one state to another. A beneficiary moving to another state would have to meet the qualifications of the state, including requirements, to receive old age assistance there.

Paprika Commercially

Louisiana expects to produce paprika commercially; California is experimenting with caraway, poppy and celery seed.

## Sportlight by GRANTLAND RICE

NASHVILLE, TENN.—This Bluegrass section of Tennessee is heavily endowed with coaches, scouts and other football veterans who from a central position cover almost the entire map. And two of the first questions they ask are—"Who is going to beat Minnesota this fall?" "Who is going to beat Fordham?"

Most of these experts have been working around with various football summer schools of instruction so they are in close touch with a major portion of the football map.

Football interest is no longer sectional. It is widespread. It covers the country.

"From all the early gossip I could pick up," one leading coach said,

JIM CROWLEY

"my guess would be that Minnesota and Fordham—the Gopher and the Ram—would be the two hardest to beat. Both get rough early tests against Washington and S.M.U., both exceptionally strong, but hardly strong enough to drive back the two combinations Bernie Bierman and Jim Crowley will be able to wheel into action. They have the backs and the lines, plus the needed reserves. They have speed to give away and even more power."

"What about Notre Dame?" I asked.

"Extremely good, especially in the backfield," my adviser said.

Red Sanders, Harry Mehre and a flock of other coaches have been working around in these summer schools with many other able professors from other points east and west, north and south.

What They Tell You

Here are a few more items they bring up.

"You can watch Frank Thomas and Alabama in the South. Not far from the front, anyway. You can bank on Mississippi with Hapes and Hovious to be dangerous—you can rate Vanderbilt well above last year—and you can enter Georgia with some of the best material in the South, especially in the backfield."

"The Southwestern scramble will be one of the hottest in years with Texas exceptionally good, S.M.U. close and several others above last year's strength. This will hardly include Texas A. & M. which has lost almost its entire 1940 first-stringers. If I had to name a leader now I'd make it Texas."

"Outside of Minnesota in the Midwest you can keep an eye on Notre Dame and Northwestern, with improvement in Wisconsin, Indiana and Ohio State. Michigan has lost too many stars from her great outfit of last fall."

"Tennessee loses many stars, plus Coach Bob Neyland. Tulane and Duke will be good. Both Nebraska and Missouri lose important cogs."

From the East

"What did you pick up from the eastern scouts outside of Fordham's Rams?" I asked.

"Navy should come next. Swede Larson won't be any flop although Siavely has lost most of his 1940 starters. Colgate will be better. So will Columbia. I didn't hear so much about Harvard and Princeton, but I know Harvard has been hard hit by air force and army losses. But they tell me Yale may be one of the surprises. Spike Nelson has a well-drilled squad and he will also call on the T-formation with some fast, hardhitting fellows to carry it through. Don't rate Yale any push-over this time."

"Army and Dartmouth are doubtful. Georgetown will be very good again, but Boston college loses its coaching staff and such people as O'Rourke, Gladeback and Kerr, and can't be as strong as B.C. was last fall. Pittsburgh is another guess."

"My ranking would be Fordham, Navy, and then a pretty general sort of mixup, which is good for general football interest."

"In the Far West they rate Stanford on top again, with Washington a close second."

It was the unanimous opinion of the group that 1941 would pile up a new record attendance. They point to the crowds the Yankees and Dodgers have drawn in baseball and football doesn't demand any such winning consistency.

You can figure in advance how many highly excited spectators Notre Dame will draw at every start—especially against Army, Navy, Southern California.

"You'll see more sellouts this fall than you ever saw before," one veteran coach said. "I mean all over the map."

### CHRISTIAN SCIENCE CHURCHES

"Substance" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, September 14.

The Golden Text was, "The things which are seen are temporal; but the things which are not seen are eternal" (II Corinthians 4:18).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Let thy work appear unto thy servants, and thy glory unto their children. And let the beauty of the Lord our God be upon us; and establish thou the work of our hands upon us; yea, the work of our hands establish thou it" (Psalms 90:16, 17).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The substance, life, intelligence, Truth, and Love, which constitute Deity, are reflected by His creation; and when we subordinate the false testimony of the corporal senses to the facts of Science, we shall see this true likeness and reflection everywhere" (p. 516).

### TURKEY RANGES AND SANITATION

#### Four Important Points for Good Birds.

By GEORGE C. CRANDALL  
(Assistant Poultry Husbandman, New Jersey Agricultural Experiment Station.)

Sanitation on the turkey range is an important point in good management of growing poult. Here are four points vital to good range conditions. Check your turkey range now to see if it comes up to the desired standards.

First, the range area should not have been used by other poultry for at least two years. The land should not be contaminated by drainage water or poultry manure, and should be well drained and free from swampy areas.

Second, all feed hoppers should be so constructed as to exclude the droppings of the turkeys. The feed hoppers should be moved at least once a week to a clean place on the range. This helps to maintain good range conditions and avoids bare spots on the range.

Third, watering equipment should be so constructed or protected so that the dropping or foreign matter cannot contaminate the water. If the water equipment is stationary, wire platforms will keep the area around them dry and sanitary. Water pans or troughs should be scrubbed with brush once daily. Disinfecting all water equipment at regular intervals is desirable. If the equipment is not stationary, it should be moved weekly to dry, clean places on the range.

Fourth, if the turkeys are allowed on open roosts on the range, this roosting area should be fenced separately from the range and so placed that the drainage from the roosting pens does not contaminate the range. The turkeys should be driven from the roosting area early in the morning and not allowed access to them until roosting time at night.

#### Tests With Homemade Paint Are Suggested

Many farmers are using a homemade paint of mortar coloring and used motor oil on barns and outbuildings. Some get good results, but others do not, says Howard M. Ellis, extension agricultural engineer. He suggests that some "experimenting" be done.

"Ordinarily," Ellis says, "from three-fourths to one pound of brick red mortar coloring will be required for each gallon of used oil. The blacker the oil, the more coloring it will require. Determine the proper mix as follows: Divide one pound of red mortar coloring into four parts. Mix in two parts (one-half pound) of the coloring, slowly, while the oil is being stirred. Paint a small section on the back of the building to be painted. Add another fourth of the mortar coloring to the original mixture and paint a second section beside the first. Repeat with the last fourth."

Allow the oil to penetrate the wood for a time, inspect and then decide which mix you desire.

Ellis says the homemade paint can be applied with an old orchard sprayer or with whitewash brushes. Mortar coloring is about six cents per pound at hardware stores. Crankcase drainings may be obtained free from some filling stations.

#### PAPER CUTTING

If your youngsters do much paper cutting and pasting, keep a large-sized sheet of unbleached muslin cloth on hand for covering the floor or rug. This makes cleaning up easy.

## Odd Tribe Uses Masks to Scare Spirit of Death

**Beatty.....**

(continued from page 1)  
riding in a motor-boat driven by June Beatty Schaub of Antioch and Palm Beach. As the boat made a sudden turn Mrs. J. Looze, her daughter Karen, 3½, of McHenry, and Irene Barrett of Wilmette who were sitting upon the back seat, were hurled into the water. Mrs. Schaub stopped the boat immediately and endeavored to come to their aid.

High waves made a close approach impossible. Telling Weisbarth to take the wheel Mrs. Schaub dived in, leaving him and an aunt of Mrs. Looze in the boat. Mrs. Looze and Miss Barrett had become fatigued in an endeavor to hold up the baby. Mrs. Schaub managed to clasp the baby's arms about her neck while she held Miss Barrett and Mrs. Looze by their hair.

Walter Schaub, husband, and his brother, Charles, who saw the accident from a nearby sail-boat dived in and swam to Mrs. Schaub's aid. W. Schaub took Mrs. Looze, his brother Miss Barrett, leaving Mrs. Schaub with the child. The trio struggled to keep afloat until a sailboat managed by Edward Zalatoris, 22, of Cicero came close enough to take Mrs. Looze and her baby, who were handed up by the Schaubs, and then to pull them in. Charles Schaub and Miss Barrett were picked up by a Miss Clancy of Chicago and another friend from Chicago in their row-boat.

The party was taken to the home of Miles where the Antioch Rescue men headed by Jim McMullen, had just arrived, and given first aid. Dr. Berke of Antioch volunteered his services and all were given the utmost attention.

It was then noticed for the first time that Weisbarth, whom other members of the accident thought to be safe was missing. Observers tell how they last saw him endeavoring to maneuver the boat to the rescue. A search for him was started immediately by the Antioch squad but to no avail.

Interested and sympathetic people who saw or heard of the tragedy remained constantly on the lake in the search. After the holiday it remained for the members of the Antioch rescue squad and the help of people they enlisted to carry on which they did at every possible opportunity, until his body was recovered.

**He Bails Out, Falling Wing Breaks Glasses**

SIMI, CALIF.—J. D. Toborg, 27, of Roscoe, Calif., went up 8,000 feet in a homemade plane.

The right wing snapped. Toborg bailed out and said he fell into the path of the broken wing. The tip just grazed his head. It broke his glasses and scratched his nose, but that's all. He floated to a safe landing.

**Pigeon Returns, Absent 12 Years****Finds Canaries Now Ruling Roost in Old Home.**

IRVINGTON, N. J.—John H. Stillwell thought there was some mistake when a workman at a coal pocket about a mile from his home telephoned that he had caught a pigeon wearing a leg band which was inscribed with Mr. Stillwell's name and address.

"I haven't any pigeons," said Mr. Stillwell. "I raise canaries. I sold all my pigeons six years ago."

However, he drove over and got the pigeon. It was a red-cheeked hen, green-breasted with reddish spots on a white body.

"Yoo-hoo," said the pigeon at sight of Mr. Stillwell.

"I'll be darned," said Mr. Stillwell at sight of the pigeon.

Mr. Stillwell was pretty sure that he recognized the bird, and when he got home with it, his wife confirmed his judgment. It was one of six young birds, all racing pigeons, which he and his wife had taken by a round-about route to Goshen, N. Y., in the spring of 1929 for a test flight. The red-cheeked hen is the first of the lot to show up. Inquiries Mr. Stillwell made at the coal pocket showed that the bird had been flying around the place for several days and this morning had found a window in the office open and had flown in.

Mr. Stillwell has lost most of his interest in pigeons and was inclined to give the red-cheeked hen to the man who had bought his other pigeons. His wife persuaded him to keep it, however.

"After all," said Mrs. Stillwell, "it made the best time of any of those we released at Goshen."

The pigeon, now 13 years old, is in good shape, well fed and not at all exhausted by its flight from Goshen, a distance of about 50 miles as the crow flies. Mr. Stillwell put it in with the canaries.

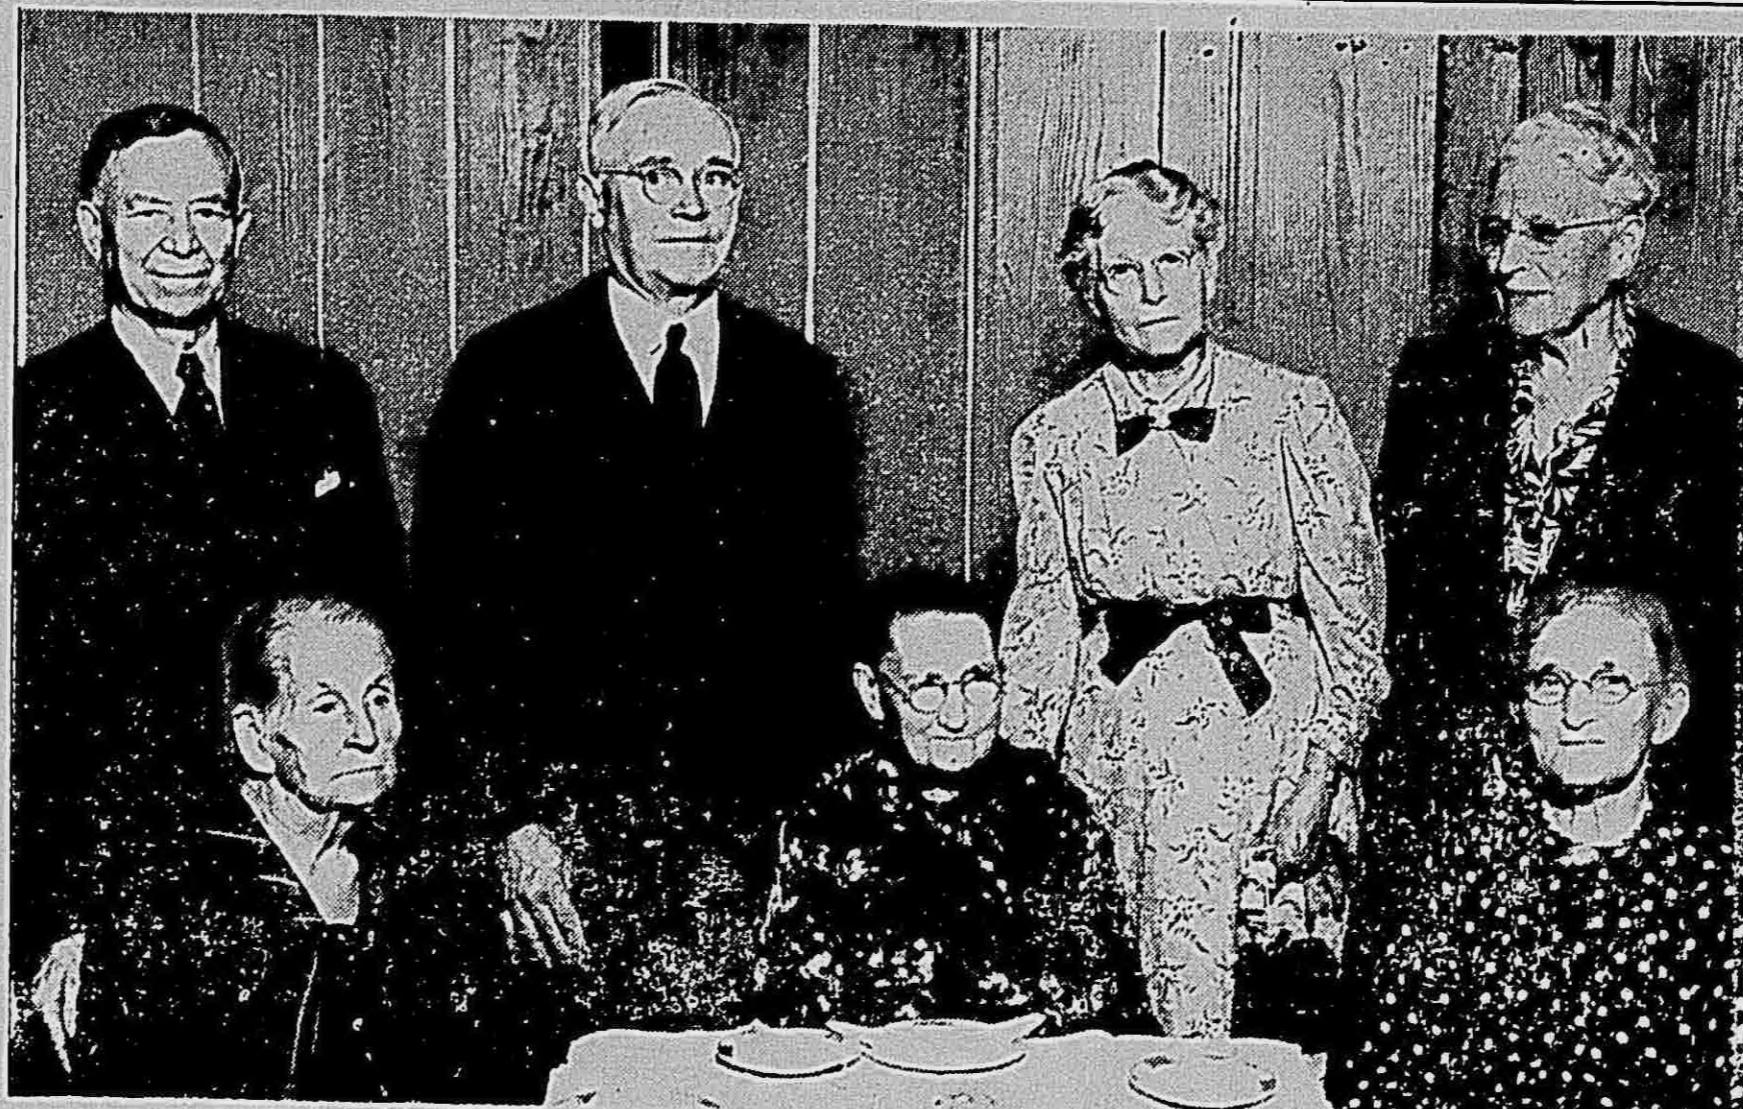

"You can't fly," he told it, "but maybe you can learn to sing."

braced, resisting the well-intentioned but mis-guided efforts of a tenderfoot to lead him over to drink out of an alkali pool . . . or whatever kind of water it is that livestock won't drink and people are sometimes foolish enough to, out west. You know, the American people's "horse sense" is being just a little insulted by the methods being used to scare, propagandize and shove them into this war — and don't think they don't know it! Sure, England would like to see us get into it. We would, too, if we were in England's shoes. —But England has received some pretty unprecedented aid —some exceedingly generous aid from us already—and we're the guys that will have to pay for it, not England. And IF we did go into the scrap—just exactly WHAT would we be fighting for? Self-defense? Nope! We can take care of ourselves without anybody's help . . . and don't think we don't know it! . . . Liberty?—Well what could we do by means of war that we couldn't do by peaceful means, is the cause of liberty? . . . War never converted anybody yet! . . . And when it comes to setting precedents . . . well, we got England out of one mess once . . . how many more times will we have to do it? . . . we're just wondering—how about you?

**View on the Aisle**

Several moving picture theaters have installed aisle carpets treated with a special fluorescent dye that shines only under invisible ultra violet rays. They glow clearly but softly, guiding the patrons safely to and down the aisles.

**Centrifugal Force**

A man in London weighs less than he would at the North pole, more than he would at the equator. Reason: centrifugal force (which opposes gravity) increases with the distance of the object from the axis of spin. Hence the maximum effect would be felt at the equator (furthest from the earth's axis of spin); least effect at the pole (the axis). If the earth's rotation were 17 times faster, men at the equator would weigh nothing, drift off into space.

**Bicycles Increase**

# DELINQUENT SPECIAL ASSESSMENTS

Village of Antioch  
Lake County, Illinois

STATE OF ILLINOIS  
COUNTY OF LAKE  
VILLAGE OF ANTIOCH

To the owner or owners of lands, lots, and real property situated in the Village of Antioch, Lake County, Illinois, hereinafter listed and described:

Public notice is hereby given that on September 22, 1941, a return will be made to Garfield R. Leaf, County Treasurer, ex-officio County Collector of the County of Lake and State of Illinois, being the general officer of said County of Lake having authority to receive State and County taxes, of all unpaid special assessments or installments thereof, matured and payable, or interest thereon with interest due to the preceding January 2nd on all installments not yet matured in the hands of the undersigned upon delinquent lands, town lots and real property, hereinafter listed and described. Take notice that such general officer on September 29th, A. D., 1941, before the County Court of Lake County, Illinois, in the court room in the Court House in the City of Waukegan in said County and State, will make application for judgment against the said lands, town lots and real property hereinafter described, for the amount of said Special Assessments, matured installments of Special Assessments, interest and costs due thereon and for an order to sell said lands, town lots, and real property for the satisfaction thereof.

Take notice further that the said Garfield R. Leaf, County Treasurer and ex-officio County Collector for the County of Lake and State of Illinois, will on the second Monday succeeding the date on which judgement will be taken, to-wit: the 20th day of October, A. D., 1941, offer and expose to Public Sale at the Court House in the City of Waukegan, Lake County, Illinois, all or such portion or portions of the property hereinabove described for the amount of Special Assessments and matured installments of Special Assessments, interest and costs due thereon for which judgment shall have been taken and shall then remain unsatisfied. Said sale will commence at the hour of 9 o'clock, A. M., Central Standard Time, on the 20th day of October, 1941, and will continue from day to day until the same shall be completed. If for any cause such judgment shall not be rendered on said 30th day of September, 1941, then such sale shall commence on the second Monday after such judgment shall be rendered.

A list of all such delinquent lands, town lots and real property upon which the Special Assessments or installments thereof remain unpaid with the names of the owners, if known, the total amount due thereon and the year or years for which the same are due is as follows:

**Love on a Dime**  
In Minneapolis, a fiscally-minded alderman urged parking meters for boulevards and lakesides favored by automobile spooers. City fathers spurned the plan and Park Superintendent C. A. Bossen cried, "We have to encourage romance, not make it expensive luxury."

**Retain Original Flavor**  
Vegetables, meats and fish retain their original flavor when reheated, if placed in a tightly covered double boiler, steamer or egg cooker. This method prevents dryness and scorching.

### High School to Open Football Season Friday

First Game Will be With McHenry Here; 39 Out for Practice

(By Rose Marie Zellhofer)

Antioch High school will open the football season with a game with McHenry here tomorrow afternoon. Considerable progress is reported to have been made since Coach C. A. Wolfenbarger and thirty-nine Sequoit players held the first football practice Sept. 3. Letter men returning are Leo Buchta, Earl Brixen, Art Carpenter, Bill Effinger, Jim Jones, Jack White, George Sterbenz, and Jim Roepenack.

Other members of the squad are Donald Bauer, Robert Bennett, Donald Bratrude, John Christensen, Edward Dunford, Robert Ellis, Stewart Good, Donald Gaa, Jimmy Horton, Edwin Jones, Bert Jordan, Richard Kautmann, Sam Klass, Bud Mapleton, Tod Mapleton, Charles Fisher, John Meyers, Louis Nielsen, Bob Phillips, Leonard Roblin, Lorch Seger, James Stabler, Richard Stasny, Lynn Techert, Max Wurzbach, Bill Chase, Art Smart, Ralph Nader, Walter Calhoun, Walter Elfering, and Joe Nader.

"Prospects Good"—Coach

The football schedule to date is as follows:

Sept. 19—McHenry—here,  
Oct. 3—Grant—here,  
Oct. 18—Barrington—there,  
Oct. 24—Northbrook—here,  
Oct. 31—Grant—there.

Regarding prospects of the team, Mr. Wolfenbarger has said, "With full co-operation of the student body, faculty, and spectators of the community, the boys feel confident of a successful season."

HIGH SCHOOL G. A. A. HOLDS SCAVENGER HUNT

Girls of Antioch Township High school were entertained at a Scavenger hunt and wiener roast held last Friday after school by the Girls' Athletic Association, under the leadership of Alice Denman, 1941 president of Antioch Township High School G. A. A. In charge were the scavenger hunt committee: Una Nelson, Lura Jean Minto, Peggy DeBaets, Kathleen Fields, and Lucille Sherman; and the wiener roast committee: Carol Upton, Alice Denman, Shirley Wells, Grace King, and Dorothy Aronson.

Plans for ways of raising money for the G. A. A. were discussed when the officers met recently. Advisers of the G. A. A. are Miss Isabell Larimer and Miss Helen Olson.

APPOINT HIGH SCHOOL SOCIAL CO-ORDINATOR

Miss Helen Olson, Girls' Athletic association adviser, girls' gym instructor, and typing teacher at Antioch Township High school, has been appointed social co-ordinator for the high school. She will supervise social activities of the school. Miss Olson, who obtained her Master of Arts degree this summer in student personnel administration at Columbia university in New York City, is looking forward to an enjoyable year filled with pleasant and constructive activities.

Plans for the year are under discussion.

### Insect Life

The maximum life of insects is considered to be 17 years.

Start of 30-Mile Bike Marathon

A big field takes off in the 30-mile marathon of the National Amateur Bicycle Championships at Pasadena, Calif. The race saw Marvin Thompson (sixth from the right) of Chicago, finish second, after winning a three-mile sprint. Thompson won the senior crown with a total of 17 points. Yes, bicycle riding seems to be coming back into its own these strenuous days.

What a Shot  
A Philadelphia policeman, firing at a speeding automobile, took aim—killed a milkman's horse.

More Traffic Officers  
It is estimated that at least 13,000 more city traffic officers, twice the present number of state traffic officers, and 1,000 more expert traffic engineers are needed to bring traffic control measures up to a minimum requirement.

Speed Turns Auto  
An automobile, traveling at the rate of 25 miles an hour, gathers sufficient momentum to turn over once. At a speed of 50 miles an hour it will turn over five times and at 70 miles an hour it will turn over approximately nine times.
